Bladder sensation codes

- 0 - No sensation of needing to pass urine, but passed urine for "social reasons", ex: just before going out, or unsure where the next toilet is
- 1 - Normal desire to pass urine and no urgency
- 2 - Urgency but it had passed away before going to the toilet
- 3 - Urgency but managed to get to the toilet, still with urgency, but did not leak urine
- 4 - Urgency and could not get to the toilet in time and leaked urine
